August 19, 1986

Mr. Charles H. Gent, Jr.  
Genwal Coal Company  
P. O. Box 1201  
Huntington, Utah 84528

Dear Mr. Gent:

Re: Modification of NOV N85-4-16-1, N86-4-6-1 and  
Cessation Order 86-4-3-1, Crandall Canyon Mine,  
ACT/015/032, Emery County, Utah

The time for the abatement of N86-4-6-1 has been extended to August 30, 1986, from August 15, 1986. This extension is granted due to administrative delay incurred during the Division's review of the mid-term permit document (submitted to the Division July 14, 1986). Abatement of NOV N85-4-16-1 has been extended to August 30, 1986 also. Completion of the mine site reconstruction must be accomplished by August 30, 1986. Modification forms for the referenced NOV's and C.O. are enclosed.

The Division has determined that 18 days have accrued to Cessation Order C86-4-3-1. Initiation of construction activities on the sedimentation pond in July "stopped the clock" on this Cessation Order with 18 days accrued. If all construction activities associated with abatement of NOV N86-4-6-1 are not completed on or before August 30, 1986, the Cessation Order will resume at the \$750.00 per day rate until either the remaining 12 days of the Cessation Order have elapsed, or the construction has been satisfactorily completed. Should satisfactory completion of the requisite construction not be accomplished until

August 19, 1986

after the lapse of the remaining 12 days of the Cessation Order, the Division will seek a Show-Cause Order, suspending further operations at Crandall Canyon until all obligations attendant to the above-cited notices of violation and cessation order have been satisfied.

If further information regarding any of the above is required, please contact Ken May or me in that regard.

Sincerely,

Lowell P. Braxton  
Administrator
